EDUCATION

University of California - Los Angeles
Bachelor's, Linguistics and Computer Science

September 2024 - June 2027
GPA: 4

De Anza College
Associate's, Computer Science

September 2023 - June 2025
GPA: 3.89

PROFESSIONAL EXPERIENCE

Senior English Writing Tutor
De Anza College

Cupertino, CA, USA
September 2024 - Present

- As an English as a Second Language (ESL) speaker, I am helping my ESL community, focus on Chinese adults and students, to fit into the new environment and overcome language barriers.
- Using my writing skills to improve students' writing and teaching them how to confidently present their ideas.

Researcher in SSG
Stanford University

Palo Alto, CA, USA
September 2024 - Present

- Conducted comprehensive data collation and analysis for biomedical and cancer research initiatives

Research Intern
Stanford University

Palo Alto, CA, USA
June 2024 - August 2024

- Defined genetic algorithm parameters and initial conditions for simulations.
- Ran simulations to observe mutation and natural selection.
- Analyzed and compared evolved organisms with reinforcement learning agents.

Project Manager
NASA L'SPACE

Tempe, AZ, USA
2024 - 2024

- Led a 20-member team, managing roles like Chief Scientist, Deputy Program Manager, and Chief Engineer.
- Coordinated public outreach efforts about our mission.
- Worked closely with NASA engineers and researchers.
- Managed key benchmarks for mission-critical, semi-autonomous operations.

AWARD PROJECTS

1st Winner - Columbia Uni. Hackathon 2024
- GreenMate

New York, NY, USA
October 2024 - October 2024

- Developed AR plant monitoring system using Snap Spectacles to display real-time plant health data

2nd Place -Berkeley Hack for Impact
NeuralNurse

Berkeley, CA, USA
February 2024 - February 2024

- Developed an AI assistant that recognizes people and remembers their relationships to help make social interactions more natural
- [Link to project](#)

Best Student Life Hack Award - SB Hack
Naccent

Santa Barbara, CA, USA
January 2025 - January 2025

- Created an app that helps students improve their English pronunciation with instant AI feedback

3rd place - DA Hack 2.5
BioMyo

Cupertino, CA, USA
May 2024 - May 2024

- Built a 3D-printed prosthetic arm that uses muscle sensors to enable natural movement
- [Link to project](#)

SKILLS

Languages: Mandarin, Cantonese, Spanish, English
